Although it is seldom indeed, that we annoy our readers with personal matters, never having done so save on two occasions during our Editorial career, we feel it due to them and to us, to acknowledge our sense of the trespass in this instance, and our regret at the necessity which made it imperative upon us.

THE CASH SYSTEM.—We are pleased to find that those traders in our midst who have reduced their operations to cash exclusively, with corresponding low prices, are driving forward prosperously. Mr. W. Reche's stock, under this system, is disappearing rapidly—Mr. B. L. Phipps' ditto, so also of the others who operate on this system.

Mr. W. A. Lore, Blind Phrenologist, will remain a few days longer at the University House. From our observations, we unhesitatingly pronounce him, one of the nicest in his touch, and most accurate in his delineations of minute shades of character, of any Phrenologist with whom we have met. Give him a call.

The weather for the past few days has been remarkably fine; nights and days just cool enough to be pleasant. It is, perhaps, a little too dry to afford us in town, an immunity from the all pervading dust; but this to the farmers in the country is an abjection which is not felt; but on the contrary, is what is wanted in order to favor them in securing and saving their crops.

Settlement of the Honduras Question.—The advice from England announcing the settlement of the last cause of difficulty between England and the United States, by the adoption of the treaty recognizing the right of Honduras to the Bay Islands. By ceding the fortified Island of Ruatan and the colony of the Bay Islands to Honduras, England abandons the last vestige of substantial sovereignty in Central America, and fully acknowledges the American interpretation of the Clayton-Bulwer treaty.

One of the clauses of this settlement is literally as follows:
"And whereas, slavery has not existed in the said Islands, the Republic of Honduras hereby engages that slavery shall not at any time hereafter be permitted to exist therein."

See the advertisement of Messrs. W. J. Azlin & Co. in another column.

BY TELEGRAPH.

HARTFORD, October 7.—The Republicans have carried 44 towns, and the Democrats 28. Considerable Democratic gains.

WASHINGTON, October 7.—Bots and Pryor met on the ground selected, but were arrested, before taking their stations, and afterwards released on parole of honor. Both returned to Richmond in charge of officers.

New York, October 8.—At the election in Delaware, yesterday, the democrats carried every district in the State by 1800 majority.

CHARLESTON DUEL.—W. R. Taber Jr. Esq. one of the Editors of the Charleston Mercury was killed in a duel by E. Magrath Esq. on the 29th ult.

Presidential Election Tickets.—Tickets have been formed in all the States for Mr. Buchanan; for Mr. Fillmore in all except Michigan, Iowa, Wisconsin, Maine, and new Hampshire; and for Mr. Fremont in all the non-slaveholding States except Pennsylvania; also in Maryland and Kentucky.

Be it Remembered, That Every whig or American in the Legislature of their State voted for the resolution instructing their Senators and Representatives in Congress, to vote for the Kansas-Nebraska bill.

Medical Testimony cannot be controverted.

One of most startling cases is narrated of Dr. McLane's Vermifuge by Dr. John Butler, of Lowell; Trumbull Co. Ohio. The case was that of a young lady who had been very sick for eight years, and had consulted a number of physicians, who had treated it as one of Prolapsus Uteri. Dr. Butler was then called in, and for a time believed with his predecessors that it was a case of Prolapsus. He was, however, soon forced to the conclusion that his patient was suffering from worms, and after much persuasion, prevailed upon her to take two doses of Dr. McLane's Vermifuge. This medicine had the effect of removing from her a countless number of the largest size. After she passed them, her health immediately returned. She is since married and continues to enjoy excellent health.

R. R. R.—What a blessing it is to the human race to feel secure against the sudden attacks of prevailing pestilences. If Cholera breaks out among us, we know that in Radway's Ready Relief, we have a preventive and a cure. If Dysentery or Diarrhoea or Cholera Morbus, or any other painful malady of the stomach or bowels, Radway's Ready Relief, associated with Radway's Regulators, which are a mild, aperient cathartic healing the bowels if sores, raw or ulcerated, cleansing the intestine from all excrements, and expelling all poisonous deposits from the system, correcting and regulating the organs of the body—thus, in a few hours, forces the system from all dysenteric material, and restore the system to ease, health and comfort. If Pneumonia or Lung Fever Typhus, Billous, Spotted, or Yellow Fever prevails bear in mind that those who will use Radway's Ready Relief and Regulators. If the body is covered with Boils, Sores, Ulcers, Pimples, Blisters, and frightful Eruptions, a dose or two of Radway's Renovating Resolvent will cure all sores, and make the skin smooth, clear and healthy. It will fill the veins with rich, pure and healthy blood, and eradicate diseases from the system. Bear in mind the three great remedies to be used are Radway's Ready Relief, Radway's Regulators and Radway's Renovating Resolvent. Sold by druggists and merchants everywhere.

THE REIGN OF ART.—In this wonderful age, Art lays her master touches on almost every thing. The ceilings over us and the carpets we tread on, are hallowed by Art. Art winds the railway through the mountains and the mud: makes her machines of wood and iron, to act as if with knowledge and annihilates space with lightning famed down to the tutelage of a boy. Nothing is too lofty for her touch and nothing too humble: A new proof of this old conviction, has just fallen under our notice, in the shape of a CARTRIDGE PILL, from the Laboratory of that world renowned Chemist Dr. J. C. Ayer.

ATTENTION FRIENDS.

HAVING now, no connection with the Drug Business, and entirely out of employment, without the means due me, I call upon all those indebted to me, either for printing, subscription to the "Flag," or accounts made with me while in the Drug Business, up to May 1856, to aid me at once. I have never asked help, or begged you before—necessity is compulsory, and on reflection you will perceive that "now is the winter of my discontent," to be made glorious by the forthcoming of the amounts I am entitled to. Your knowledge of my affairs will certainly induce an immediate settlement.

JOY TO THE WORLD!

THE ONLY INFALLIBLE REMEDY!

HURLEY'S SARSAPARILLA.

OF all the Remedies that have been discovered during the present age for the "thousand ills that flesh is heir to," none equal this wonderful preparation. Only three years have elapsed since the discoverer (who spent a decade in studying, experimenting and perfecting it) first introduced it to the public, and it is already recognized by the most eminent physicians, in all parts of the world, as the most powerful and effective remedy for certain diseases of which they have knowledge.

All other compounds or syrups of the root have hitherto failed to command the sanction of the faculty, because, on being tested, they have been found to contain noxious ingredients, which neutralize the good effects of the sarsaparilla, and often injure the health of the patient. It is not so with Hurley's preparation.

This is the pure and genuine extract of the root, and will, on trial, be found to effect a certain and perfect cure of the following complaints and diseases: Affections of the bones, Habitual Costiveness, Debility, Indigestion, Diseases of the Kidneys, Liver Complaint, Dyspepsia, Piles, Erysipelas, Pulmonary Diseases, Female Irregularities, Scrofula, or King's Evil, Fistula, Syphilis, and all Skin Diseases.

Besides curing the above, it is also known to be a great and powerful tonic purifying the blood and invigorating the system.

In short, it is, without exception, in the cases mentioned and its general effect on the system, the most efficacious, as it is the most desirable remedy of the age. It is already extensively used throughout the country, and is fast obtaining an European reputation. The instances of cures it has effected are daily coming to the proprietor's knowledge, and he has no hesitation in recommending it to one and all who desire to procure relief from suffering. One bottle being tried its effects will be too apparent to admit of further doubt.

Recollect Hurley's Sarsaparilla is the only genuine article in the market.

Price, \$1 per bottle, or six bottles for \$5.

THIS will be our first season, and we have formed a partnership for the purpose of transacting in this city a Cotton Factorage, Grocery and General Commission Business, and we hope by strict personal attention to all business confided to us, to merit and receive a liberal patronage. We have a most excellent stock of Bagging, Rope and Twine, which we will sell upon favorable terms, and will fill orders for Groceries and Merchandise carefully and promptly. Fire Insurance will be effected on all Cotton and other Produce in store unless we are otherwise instructed; and all shipments of Cotton by steamboats to our address, will be covered by our *open Policy of Insurance*, at less instructions to the contrary appear upon the Bills of Lading. Our charge for selling Cotton is Fifty cents per Bale, Storing and Weighing, Twenty-five cents per Bale. We will not charge the Tax upon sales of Produce, as we deem it unjust and unconstitutional. Our Store-house is large, and we will attend with promptness to receiving and forwarding articles directed to our care. We pledge ourselves to obtain the full market price for all Cotton and Produce consigned to us, and promise our very best attention to the interest of those who place themselves in our hands.

MERCHANTS,

Main street, second door north of Union,
MEMPHIS, TENN.

OUR business now being an exclusive Commission Business, it is not our purpose to make profit on supplies. We have our arrangements with Wholesale Grocers to furnish us supplies for our customers at the lowest cash prices. We shall keep a supply of the best Bagging and Rope, which we will furnish to our customers at a mere nominal commission for selling.

We would be pleased to see our friends at our office, to call upon them personally is out of our power, and a visit from us might be construed into a mode of electioneering that we have never adopted, after an uninterrupted business of ten years in this city, our name and standing must be familiar to many.

We solicit consignments of Cotton, Corn, Tobacco, Wheat, Flour, Hay and Wood, in short, all the productions of the country. We now have a market for all and our best exertions will be used in their disposal.

Cotton consigned to us by steamboat will be covered by our open Policy.

Cotton in store will be insured, unless directed otherwise.
